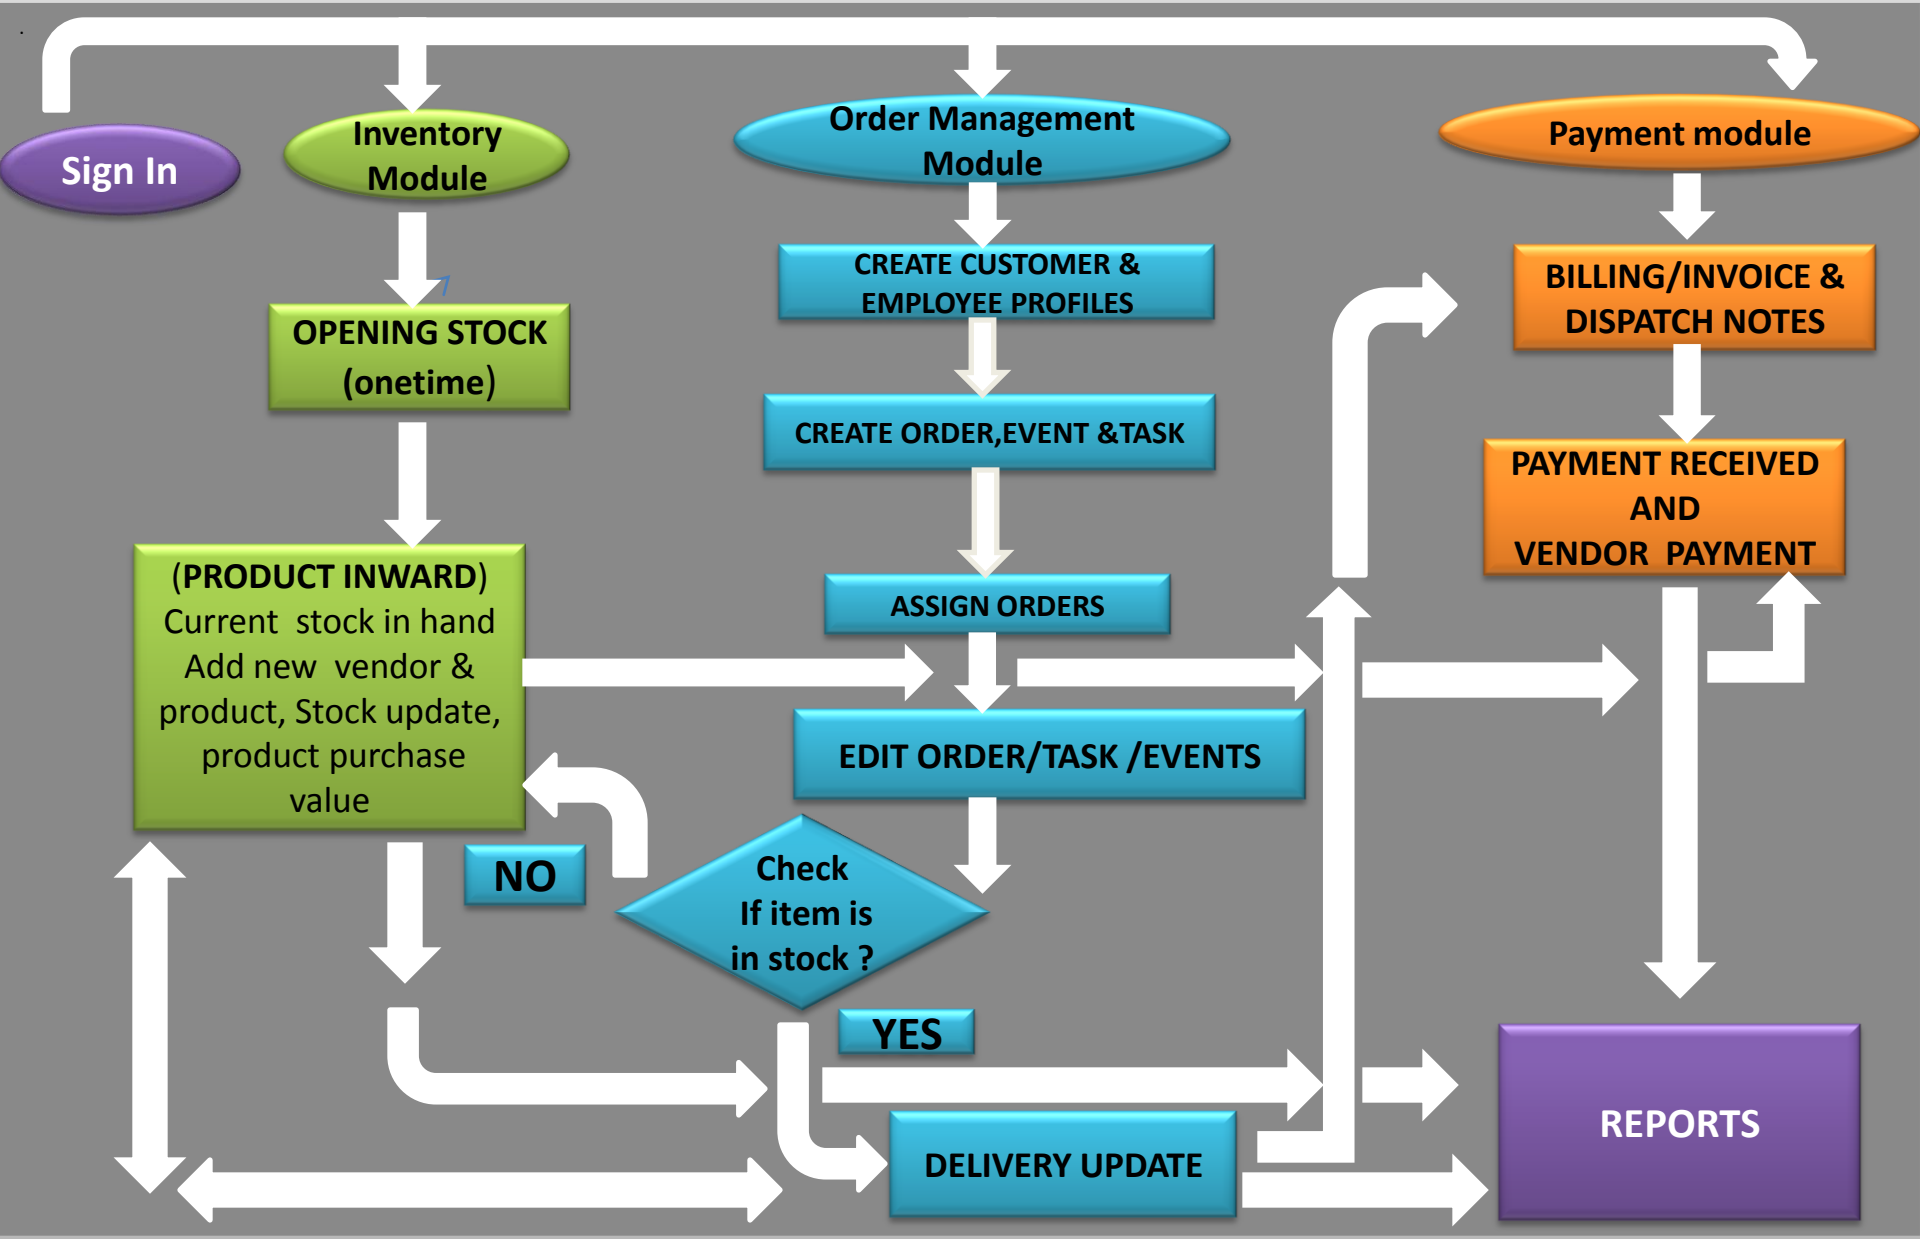
WORKFLOW Of SITAONE PLUS



BENEFITS IN BUSINESS

❖ Work Flexibility

- Add product list in multiple currencies.
- View product portfolio.
- Create multiple delivery locations for individual customers.
- Manage customer and employee profile.

❖ At A Glance

- Calendar interface with overall view of operational matters.
- Panoramic view of orders.

❖ Zero Repetitive Work

- A single data entry applies to all relevant forms within the system eliminating duplicity of effort and wastage of time.

BENEFITS IN BUSINESS

❖ Ease of Convenience & Communication

- Sync across platforms: laptop, tablet and mobile.
- Single login for mobile and laptop making the app accessible anytime, anywhere.
- Internal sharing of tasks/events and delivery status.
- Connecting internal and external stakeholders through e-mail notification.

❖ Report

- Generating data into meaningful information making business decisions, just and well-informed.
(eg. Orders v/s Deliveries, Revenue per Customer, Total orders in a specified time)

❖ Customer Trust

- Integration of dates with sales delivery and customer transaction details makes SITA ONE+, the easiest and effortless customer relationship tool.

BENEFITS ON BUSINESS

❖ Keep your Focus

- The app is designed to minus redundant or repetitive processes giving more time and effort on your business.
(eg. double entries)

❖ Keep a Lookout

- Real time updates of data and system interaction points.
- Maintenance of data for life.
- Up to date reports to track sales and revenue.
- Data summary viewer for effective resource planning and utilization.

❖ The Real Growth

- Simplifying the business gives more time to enhance work productivity. Motivating individuals personally as well as at work. Finally establishing a healthy work environment.

ADD ON

❖ Customization

- Add or modify fields to support workflow

❖ Cloud / Server space availability

- For application to be hosted on cloud or website space

❖ Others Services

-Web hosting, Email solutions, Data Centre management, Virtual Private Server (VPS), Web space, Dedicated server
